

ANNOUNCEMENT

(5)

We are pleased to ANNOUNCE opening of GIFA TOKEN EXCHANGE PLATFORM for trade and exchange in the following crypto friendly countries using GIFX, BTC, BCH, ETH, LTC, XRP, USDT:

Turkey, Netherlands, Check Republic, Slovenia, Argentina, Estonia, Malta, Switzerland, UK and Germany.

We will be extending this to other countries soon and in particular to every State in the USA on or before August 2022.

Investing in the cryptocurrency sphere and launching our own GIFA Token cryptocurrency has been a great decision. With less than only 7 months since the launch date and into the 2nd PHASE of our ICO, we have seen GIFA Token surge in value as the worldwide distribution has reached over 200 million.

Rapidly we are witnessing countries across the globe joining the emerging sector and the crypto train, determining the status and legality of crypto coins and crypto trading in their countries. It would probably be not too long before we see a worldwide acceptance of crypto currencies as a means of exchange.

Cryptocurrencies are fast gaining ground as a new means of payment, as a medium of exchange based on blockchain technology.

All we can say is

KEEP WATCHING THIS SPACE FOR NEW REGULAR UPDATES

March 2021
