

GIFA TOKEN ANNOUNCEMENT

(3)

GIFA TOKEN (GIFX)

Continue to take the Crypto World by storm

GIFA TOKEN, underpinned by blockchain technology, has surged to a record high (over 760% increase) since its creation in September 2020, amid rising interest from investors and subscribers.

Here are some of the reasons;

1. GIFA Holding's Vision for the future, coupled together with its dynamic and adaptive marketing strategy
2. GIFA TOKEN fast being accepted as 'People's Cryptocurrency'.
3. Blockchain technology continuing to explode in popularity and the growing global blockchain market size exponentially increasing the demand for cryptocurrencies
4. Businesses from a multitude of industries showing growing interest to adopt blockchain technology for enhancing their business processes.
5. The COVID-19 pandemic has accelerated the digital transformation drive in many areas, especially via the use of blockchain or distributed ledger technology.
6. Clear evidence showing 2020 to be a good year for all crypto markets, and expectations are for 2021 to be even a better year for the crypto world
7. Clear evidence of proliferation of central banks worldwide wishing to join the crypto-train, driven by the diminishing use of cash, the digitalisation of the economy, increase of private digital currencies globally
8. Bottomline, cryptocurrency is fast on the way to becoming a mainstream payment method for the global community.
